Natural Flex[®] 13" Eco-Friendly Latex Foam Bed

935

Eco-Friendly Anti-Microbial 100% Rayon Fabric from Sustainable Bamboo Fiber

COOLMAX[®] Comfort and Luxurious Silk
COOLMAX[®] compliments the cover's properties by adding breathability and enhancing the fabric drying rate, ensuring you remain cool, dry and comfortable while you sleep. Silk blend in quilting provides soft, luxurious feel.

Certified Eco-Friendly Manufacturing

Natural Flex foam is manufactured in a sealed pressurized chamber, using pressure rather than chemicals to control the foam's properties. Harmful VOC vapors are also contained and prevented from being released into the atmosphere.

1" Naturally Responsive Latex Foam

2" **Stay-Cool** Channel Vented Tri-Zone Engineered Latex Foam

Multiple channels in the foam provide cool, refreshing air circulation. Excess heat is directed away so you can sleep in a cool, comfortable environment. Tri-zone construction provides enhanced lumbar support.

Convolute Engineered Latex Foam

High Density Reflexa Foam

Channel Vented Tri-Zone FoamSpring[™] Support System

Increases contouring and provides enhanced lumbar support

20 Year Limited Warranty

This mattress meets the Level I safety and environmental requirements established by the Specialty Sleep Association
